

Welcome to McDonald Eye Care Associates

Thank you for choosing our practice for your eye care needs. McDonald Eye Care Associates has been committed to our patients and the community for over 40 years. We have created a very family-friendly atmosphere that appeals to children, parents, and seniors alike. *Our commitment to healthy eyes is unrestricted, our goal is to help you see your best and preserve the health of your eyes using the best and most up to date optometric technology and testing, treatment and management procedures available.*

We believe personalized, professional and friendly care is what people expect from their eye doctor. Our optometric care starts from first contact and ends when you leave our office knowing you have the best information to make informed decisions about your eye care needs and services. We know you will have the best information to make decisions about all your eye care services from glasses and contact lenses to vision therapy.

In addition to providing optometry services and selling optometric products, we are committed to supporting and improving the Lakeville-area community through education, community involvement, and sponsorships.

Please call your insurance company to verify your vision benefits. For your annual eye exams, please know if you have "routine vision" coverage, medical coverage, or if you have a separate Vision Plan (In-Network for Vision Service Plan (VSP)). If you have a different vision plan we can still see you for your medical eye care needs.

Please bring with you:

- Insurance Card(s): have available at every visit.
 - There have been **many** changes of the last few years. Please bring in your most recent medical insurance card(s), even if you have been seen at our office in the recent past.
- Verify your benefits with your insurance company.
 - *You must be able to tell your doctor if you are here for a VSP, routine, or medical eye exam.*
 - [Click Here](#) for more information on routine vs. medical
 - Referral Needed: Verify your doctor is In-Network or bring in the proper form.
- Health History Form: print and fill out. If you are unable to fill out the health history form prior to your visit, please arrive 15 minutes before your scheduled appointment.
 - Visit: www.McDonaldEyeCareAssociates.com
 - Click on [Office Forms](#)
 - Select [Patient Health History](#)
- List of Medication including *strength, form (i.e. tablet/capsule/liquid/IV), schedule*
 - This includes over-the-counter medications, supplements and/or herbs/vitamins
- Contact lenses: the lenses you're currently wearing IF you'd like to have a contact lens prescription renewed.
 - If you are new to our office please bring your most recent contact lens prescription OR a box/blister pack that has the name and prescription of your current contacts.
- Glasses: old and new

We look forward to seeing you and appreciate your help with these sometimes complicated insurance issues.
